EXCELLENCE IN FLIGHT • • • EXCELLENCE IN EVERY SHOT

Four Seasons Aviation Ltd. and Rotor-City Inc. together provide a full range of helicopter and airplane services including executive charters, maintenance and management.

Executive Executive Charters—Excellence in Flight

At Four Seasons Aviation, we understand the fast pace of today's business and the tight schedules of key executives. We can get you safely, quickly and comfortably from point to point, flying high above the congestion of urban traffic aboard our meticulously maintained helicopters. Our team of highly experienced professionals will provide you with a level of service unsurpassed by any other charter company.

With our fleet of modern helicopters, we are equipped to fly day or night, year-round and, for your convenience, we operate from several landing areas in the GTA including Downsview Airport, The Polson Pier Helipad, Eagles Nest Golf Course Helipad and the AFI Security Helipad.

Helicopter Services and Management

At Rotor-City, we provide a full range of helicopter management and flight support services. Our services include in-house flight planning and scheduling, flight crew staffing, hangar space, maintenance and fuel services, along with insurance, accounting and administrative support. We also offer catering and our facilities include a comfortable lounge and an executive boardroom set up for 12, equipped with a 52" flat screen TV, wireless internet access and a conference call system. You, the aircraft owner, retain full control of your aircraft, while Rotor-City provides the turnkey management program to support your needs. Our services are always tailored to your specific requirements and always confidential.

Aerial Cinematography—Excellence in Every Shot

For 25 years, Four Seasons Aviation owner and president David Tommasini has been involved in the film industry and has established himself as one of the most respected and trusted cinematography helicopter pilots. David's reputation has been built on safety and understanding the needs of cinematographers in the context of the capabilities of the aircraft. His aerial cinematography credits include such feature films as "Fly Away Home" and "The Hulk", as well as a number of major broadcast sporting events and television productions. For the complete list of his credits, please go to the Internet Movie Database website at www.imdb.com.
